Notable success

- For a gaming startup, I designed and built their murder mystery story generation service, starting from a greenfield design of the primitives.
- For a semiconductor analytics startup, I designed a new computer name disambiguation approach for AMD's sale analytics pipeline.
- For the Langchain open-source library, I contributed an experimental [CPAL Chain](#) - first causal LLM chain. [Tweet by LangChain](#).
- For a legal ops company, a new language AI billing feature.
- For a people analytics startup, new microservice paradigm.
- For academics, new location based human inequality metrics in [Assessing Inequality using Geographic Income Distributions](#)
- For several companies, I built observability systems.

Interesting activities

- For my side-project, Nobsmed.com, I am making a website to help people compare their treatment options by summarizing clinical study outcomes along with Reddit personal experience anecdotal comments.
- I climbed Cotopaxi (21,000 ft), survived bodyboarding Mexpipe, worked with students in Medellín, Columbia to make [ClusterPy](#), was a kids snowboard instructor at Vail Resorts, CO, was an assistant manager at Gundy's Grill in Vail Resorts, CO, was a counselor for severely emotionally disturbed children at Seneca Institute, CA.
